linkedin.com/in/magali-fabri

github.com/magalifabri

I'm a starting developer with a strong attraction to clean design and cleaner code. With a critical eye for detail and lots of hard work, I aim to build things that are a pleasure to view and interact with.

A few projects

Promo Notifier (personal project) is a mobile app I'm working on. Users can register, indicate supermarket promotions they're interested in, and receive a notification when such promotions become active.

Angular, Ionic, Capacitor, Firebase, Node.js + cheerio, Cyclic

Gitlery (BeCode project) creates a gallery with screenshots found in a GitHub user's repositories. Modal windows provide additional information on the repository's project.

ReactJS, Node.js + Express & cheerio, PostgreSQL, GitHub API, Cyclic

Work experience

Junior Developer Intern @ Foodm in Ghent, BE --- 7/2022 - 9/2022

Improve site (WordPress + Elementor) and app (Angular + Ionic)

Baker @ Delhaize in Brussels, BE --- 9/2020 - 12/2020

Volunteer @ Boskanter VZW in Brakel, BE --- 11/2016 - 10/2019

- **Marketing & Communication:** I created a new brand style, set up a new website, made and sent out newsletters, and designed other types of communication material, such as flyers.
- **Baker:** I took over the running of a tiny bakery for which I executed almost all the tasks by myself, from purchasing supplies, to baking, to billing. Towards the end I also trained successors.

Various volunteer jobs, international --- 12/2014 - 11/2016

Education

Web Development @ BeCode in Ghent, BE --- 12/2021 - present

Coding @ 19 in Brussels, BE --- 1/2020 - 11/2021

Marketing Economics @ Windesheim in Zwolle, NL --- 2008 - 2013
